Campaign Spending: [List of Filers](#)

My name is Roger Evans (A.K.A. the Meaner Wiener guy). I am a business owner and active in my community. I am a candidate for representative of the 5th council district, not with an agenda of my own but to represent the people of the 5th council district. Thru a personal survey some of the more pressing problems in our district are; poor police response, traffic congestion, improving and enlarging the Keaau-Pahoa transfer and recycle station, zoning and slow building permit process for both business and residential building permits.

Island wide we need a solution for our trash disposal problem as our east Hawaii land fill is fast becoming obsolete and the cost and hauling problems are far too great to truck garbage from east Hawaii to west Hawaii. Bring our County Police patrol cars into the 21st century for effectiveness, safety and cost.

About 85% of the people who live in the Puna Makai district live in private subdivisions and are taxed just as everyone else in the county; but, the county is not allowed to spend our tax money in these private subdivisions. Taxed without benefits, this must change.

I have lived in Hawaii for more than 26 years, For the last 18 years I've been very interested in the direction our council has taken us. I do not believe that the Puna district has been adequately represented in the council for more than 10 years. Elect Roger Evans as the representative who will put Puna first. Mahalo
